

Research Program Application Guidelines

Thank you for your interest in our Research Program. This is an exciting program and we look forward to learning more about you, your research interests, and how we can work together to make your research both rigorous and applicable to real world problems. To complete your application, please submit the information outlined below to Ashley Palmer, Research Consultant at apalmer@hoganassessments.com.

First, tell us about you:

- Your full name and contact information
- Your school affiliation and the department in which you work

Next, tell us about your research:

- Title of your proposed project and abstract of the proposal
- A 750 – 1000 word research proposal, including
 - How the research fits into the existing literature
 - Your hypotheses, with specific attention to the variables to be included
 - Research design, with specific attention to your sampling plan
 - Proposed analyses

To optimize the potential publication value of your research, we encourage you to design a project using a sample from an applied setting and performance criteria in the data collection.

Finally, tell us about your timeline:

- IRB approval
- Sample arrangements
- Data collection
- Data analysis
- Preparation of your manuscript for review

We welcome any questions you have concerning this application. It would be useful to receive your application within 30 days of your receipt of this letter. Upon the receipt of your application documents, we will contact you with our questions and comments. We look forward to working with you and wish you the best.
