

# ADVANCED INTERPRETATION WORKSHOP

DEVELOPMENT PROGRAMS

**The two-day Hogan Assessment Advanced Interpretation Workshop** will provide in-depth instruction on how to create configural interpretations of Hogan data. Participants will increase their ability to evaluate and interpret Hogan profiles across all three Hogan Assessments and learn how the three data sets impact, buffer, and nuance each other. These interpretations are an effective foundation for development planning, executive coaching and working with high potential employees.

**Wednesday, September 19: 8am-5pm**

**Thursday, September 20: 8am-2pm**

**Georgia Tech Global Learning Center**

**84 Fifth St. N.W., Atlanta, GA 30308**

**\$2,200.00 per participant**

\*\*As a prerequisite for the Advanced Interpretation Workshop, participants must have successfully completed the Hogan Certification Workshop. Participants will also receive pre-work to be completed prior to the workshop and be asked to bring a challenging case study or profile with them.

## **The Hogan Advanced Interpretation Workshop covers these learning objectives:**

- Identify important configural interpretations within and between the three Hogan personality inventories
- Gain an in-depth understanding of how the Hogan subscales (HICS) influence the overall scale score
- Review and interpret dyadic and triadic configurations, conflicts and their behavioral implications
- Take a deeper look at Hogan Development Survey interpretation
- Learn how to evaluate the Motives, Values and Preferences Inventory using the “cluster approach” and how it interacts with the Hogan Personality Inventory & Hogan Development Survey
- Identify and discuss a range of common profile and coaching challenges and how they relate to the Hogan inventories
- Critically evaluate case studies using all three assessments and create appropriate development actions
- Explore how scales relate to general job competencies
- Collaborate and discuss interpretation techniques and coaching strategies with other Hogan-user professionals

Please join us for this unique workshop where the participants and facilitators will be experienced users of the Hogan inventories and will bring knowledge on the nuances and challenges associated with profile interpretation and individual development.
