Background

Dale has over 30 years’ experience in human resources, organizational development, and clinical psychology. He has worked in the manufacturing, fiservices, data processing, transportation, and consulting industries to develop, improve, and foster internal capability to meet business challenges. Dale’s corporate experience includes senior human resource roles with a focus on leadership development, high potentials development, and succession planning.

As clinician, he has over 10 years of experience working with couples as well as individuals in a therapeutic environment. His psychological training is in a wide spectrum of approaches – including, psychodynamic/ interpersonal therapy, cognitive behavioral therapy, family systems, and emotionally focused therapy – which enables him to incorporate multiple types of interventions with clients depending upon individual needs.
